A GROWING PART OF THE CITY.

A Look at Some of the New Residences, Two of Which Attorney Hamilton has Just Completed.

The western part of the city in the neighborhood of Norton and West Chapel streets shows this spring some elegant new houses for good tenants.

Among them we have recently noticed two very handsome apartment houses just completed by C. S. Hamilton. One of the houses is situated on Norton street, close to West Chapel, and the other on Irving street, also close to the corner of West Chapel and Norton streets. Both houses have cars of the West Chapel street line running by them every six minutes, connecting with the center of the city. The houses are models of the best modern workmanship and have all the best and most modern improvements, and the principal rooms are finished in the natural wood. These houses were built for the purpose of giving to good tenants residences within the means of people in moderate circumstances and at the same time all the advantages of a first class residence in a good neighborhood. The houses have some entirely new features in building, so that each family is entirely separated from the other. The rooms are high, spacious and well lighted.

The owner says that he has had many applicants for them and a part of the apartments are already engaged.

First Baptist Church.

At the First Baptist church to-morrow evening Rev. J. H. Mason will give the last of the series of addresses on "Storm Centers of Civilization." The subject will be "Is There Any Hope?" So many suggestions have been sent in in answer to Mr. Mason's request for the best method of dealing with the liquor problem that these will be considered on Sunday evening, May 5.
